

KEGG_2021_Human

Enriched terms

Antigen processing and presentation
 Natural killer cell mediated cytotoxicit...
 Graft-versus-host disease
 Viral myocarditis
 Cell adhesion molecules
 Allograft rejection
 Type I diabetes mellitus
 Yersinia infection
 Phagosome
 Human T-cell leukemia virus 1 infection
 Autoimmune thyroid disease
 Leukocyte transendothelial migration
 Th1 and Th2 cell differentiation
 Regulation of actin cytoskeleton
 Epstein-Barr virus infection
 Shigellosis
 Th17 cell differentiation
 Pathogenic Escherichia coli infection
 Salmonella infection
 Bacterial invasion of epithelial cells
